PROFESSIONAL SUMMARY

Software Engineering graduate (CGPA 3.7) with hands-on experience in web development, data annotation for machine learning models, IoT projects, and programming instruction. Proficient in Java (Spring Boot), MERN stack, C/C++, JavaScript, HTML/CSS, SQL, and Prompt Engineering. Active competitive programmer with 400+ problems solved. Seeking Software Engineering or AI/ML roles.

EXPERIENCE

Co-Founder & ICT/Programming Instructor

SPC Academy | Dhaka, Bangladesh | December 2024 – Present

- Delivered ICT and programming instruction; designed practical coding sessions to build problem-solving skills.

Co-Founder

Sonamonider Programming Adda | Bangladesh | November 2022 – Present

- Organized local coding contests and mentored participants to promote competitive programming.

Data Annotator

Quantigo AI | Dhaka, Bangladesh | October 2024 – November 2024

- Prepared high-quality annotated datasets using Supervisely to train and improve machine learning models.

IT Executive Officer

Folon (Under ICT Division) | Dhaka, Bangladesh | November 2022 – November 2023

- Developed and maintained websites; diagnosed technical issues and optimized performance metrics.
- Provided technical support via email, phone, and live chat; contributed to team brainstorming sessions.

PROJECTS

- TeacherConnect — Knowledge Marketplace** (MERN Stack): Role-based full-stack platform where teachers publish expertise, students request sessions, and both sides chat once a request is accepted. Features JWT auth (7-day expiry, bcrypt), Helmet middleware, and role-based route guards. Tech: React 19, Vite 7, React Router 7, Express 5, MongoDB, JWT.
- IoT Automation Project** – IoT-based automation system (UIU CSE Fest 2025 shortlisted; National Robotics Championship 2025).
- Restaurant Management System** – Console-based restaurant management application developed in C.
- Employee Management System (CLI)** – Java CLI application for employee records (GitHub: hossentahir/Employee-Management-System-CLI-Application).
- JDBC CRUD Application** – Java + MySQL CRUD operations (GitHub: hossentahir/JDBC_Cilcrud_mysql).
- Personal Web Portfolio** – Responsive websites with HTML, CSS, JavaScript (GitHub: hossentahir/web-portfolio | Live: sazzad-engr.vercel.app).

TECHNICAL SKILLS

Languages: Java (Spring Boot), C, C++, PHP, JavaScript, SQL, MySQL

MERN / Web: React 19, Vite, React Router, Express, MongoDB, HTML, CSS (Bootstrap, Tailwind), JavaScript

AI/ML: Prompt Engineering, Data Annotation (Supervisely), ML Model Data Preparation

IoT & SQA: IoT Research & Development | JMeter, Selenium IDE, Postman

Tools: Git/GitHub, JWT, bcrypt, Helmet, Canva, Microsoft Office (Certified Specialist)

COMPETITIVE PROGRAMMING

Codeforces (sazzad_hossen00): 72 solved | youKnowWho Academy: 300+ | Beecrowd: 27 | AtCoder: 14 | HackerRank: 3925 Hackos

EDUCATION

B.Sc. in Software Engineering – Daffodil International University, Dhaka | CGPA: 3.7 | Software Engineering Club Member

HSC (Science) – Govt. Bangabandhu College, Gopalganj | GPA: 5.00

SSC (Science) – W.M. High School, Mollahat, Bagerhat | GPA: 4.83

ACHIEVEMENTS & PARTICIPATION

ICPC 2022 | NASA Space Apps Challenge 2024 (Team Exotics) | UIU CSE Fest 2025 (IoT – Shortlisted) | National Robotics Championship 2025 (IoT) | Startup World Cup Bangladesh 2025
